Fiftieth Anniversary

1894 - 1944

Bay State Nurseries
Incorporated
NORTH ABINGTON, MASS.

1894 --- 1944

It was on March 20, 1894 that Windsor H. Wyman
sent out his first leaflet announcing:—

NURSERY STOCK.

Bay State Nurseries.

NORTH ABINGTON, - - MASS.

We desire to inform the people of this section that we are planting a nursery, and are already prepared to supply the needs of the people for the Spring of 1894.

We have ornamental trees in variety: Purple Beech, Cut-leaf Birch, Catalpa, Laburnum, Maples, Tulip etc.; fruit trees, Apple, Pear, Plum, Peach, Cherry, in variety; small fruits, Strawberry, Raspberry, Blackberry, Currant, Gooseberry; shrubs, grape and other vines in over sixty (60) varieties; and roses in about fifty (50) varieties, including Climbing and Hybrid Perpetuals.

It is our aim to keep a stock of all the most desirable varieties of fruit and ornamental trees, shrubs, vines and roses, and to save money to the purchasers who buy of us rather than of foreign concerns.

We invite you to come and investigate.

All parties coming on the electric cars should stop at Adams street, and a walk to the north of three or four minutes will bring you to the packing grounds.

Respectfully,

W H WYMAN & CO

March 20, 1894.

Shipping Directions

Customers are requested to state explicitly the method by which they wish stock forwarded. When no route or method is designated we exercise our best judgment. Shipments may be made by express, freight or parcel post. Truck deliveries are subject to special arrangement. We are endeavoring to comply with the O.D.T. regulations by combining shipments whenever possible. Please consider this when asking us to arrange deliveries.

Conditions of Sale

The articles herein listed will be furnished in accordance with the following schedule:

1 to 4 plants of one kind and size will be priced at the each rate.

5 to 24 plants of one kind and size will be priced at the ten rate.

25 or more plants of one kind and size will be furnished at the hundred rate, this rate given upon request.

Specimen plants, selected by the customer or by his representative, will be priced according to their individual values.

Prices are subject to change without notice

Guarantee

We guarantee our plants to be healthy and free from injurious insects, to be dug carefully and packed properly for safe shipment. If damaged in transit, a claim should be made upon receipt, notifying carrier and us of the circumstances. If plants prove to be other than true to name, we will supply new ones at the first proper planting season following such claim, but in no case do we assume liability for more than the original purchase price. We do not guarantee our plants to live, because we have no control over them after they leave our hands. You can guarantee their success by giving them proper care.

Terms

Our terms are cash. Charge accounts, for 30-day credit, may be opened upon receipt of satisfactory credit references, allowing us time for investigation. All accounts unpaid after due date will be subject to sight draft without further notice. C.O.D. express shipment will be made (with collection charges added to the bill) only when order is accompanied by a deposit of at least 25 per cent. of the amount of the bill.

Evergreens

*All Evergreens are dug Balled & Burlaped (B&B) at prices quoted.
Five or more Evergreens of one kind will be priced at the 10 rate.*

THUJA occidentalis

The common, upright, flat-leaved Evergreen so commonly used as single specimens and for hedges and windbreaks everywhere. May be kept at any height by shearing. It thrives on moist as well as dry land, and endures city conditions.

occ. douglasi pyramidalis

Sharp spire effect. Foliage dark green in whirls.

occ. globosa

A low, slow-growing, dense, globe-shaped variety useful for border planting.

occ. hoveyi

An upright globular form, with light yellow-green foliage. Splendid for formal plantings.

occ. pyramidalis

A densely branched variety of distinct columnar growth with rich dark glossy green foliage. Good for foundation plantings and for hedges of medium height.

occ. vervaeneana

A broad pyramid for screens and tall hedges.

occ. wareana

A broad, dense bush of upright growth and dark blue-green foliage. Very hardy, slow growing.

TSUGA canadensis

The Hemlock is the finest North American evergreen. It makes a broad pyramidal medium-sized tree of dense growth, with rich green foliage and more or less drooping branches, giving a particularly graceful effect. By trimming them once each year, Hemlocks can be used satisfactorily in foundation plantings.

caroliniana

Attractive tree with dark green foliage and pendulous branches.

diversifolia

This variety has shorter foliage than either the Canada or the Carolina Hemlock. It is very dwarf and makes a dense mass of foliage.

Planting Suggestions

All our Evergreens are shipped with the roots in a ball of earth securely wrapped in burlap. It is important not to let this ball of earth become dry. When planting, be sure to dig a hole large and deep enough to receive ball without breaking or forcing. Remove the burlap before filling in with good soil. If the ground is dry, the hole should be partly filled with well-trodden earth and then filled with water. When the water has soaked in, put in more earth and more water, repeating the process until completed. If a slight depression is left about the base of the plant, it will help in future watering.

All newly planted Evergreens should be made as firm as possible, that is, do not hesitate to tread the soil on the surface of the ground or to tamp it with a stick until it is very firm. Planted in this way, the plant is well anchored and not likely to be loosened by strong winds or heaved out by frost.

Herbs

The Herbs are a necessary part of every Victory Garden. Their use increases the kinds of dishes we can create from the limited varieties of foods we can buy. Soups, salads, meats, and vegetables are all made more interesting and more tasty by the addition of Herbs. Many home-canned foods demand the use of Herbs. A corner of the garden planted to Herbs will add interest and enjoyment to the table.

Prices are: Each 35c, 3 for \$1.00, 10 for \$3.00, except as otherwise noted.

Plants which grow in partial shade are marked PS.

Roses

HYBRID TEA ROSES

Provide Bloom from June to October

Field-grown Plants, Dormant only.

\$1.00 each, \$9.00 for 10, except as otherwise noted.

Betty Uprichard. A vigorous and dependable Rose. Good-sized buds open to salmon suffused with orange on the inside, coppery carmine on the outside of petals.

Caledonia. A white Rose with exceptionally long-pointed buds opening to very double, high-centered, long-lasting, large flowers.

Condesa de Sastago. A splendid two-toned Rose with very large, double flowers. Oriental red inside and rich gold without.

Etoile de Hollande. Long, pointed, glorious, scarlet-crimson buds, opening to rich, intensely fragrant, glowing red flowers.

K. A. Viktoria. The standard white for 40 years. Pearly color, splendid in form, exquisitely perfumed.

Miss Rowena Thom. Large brilliant satiny pink with gold base. Fragrant.

Mme. Jules Bouche. The best white, with large well-shaped double white blossoms with a very faint pinkish tinge at center.

Mrs. Pierre S. DuPont. Buds rather small but exquisitely formed, opening to a deep golden yellow.

Mrs. Sam McGredy. A rose that blooms profusely, is fragrant. Scarlet orange changing to copper.

Pink Dawn. A vigorous Rose and heavy bloomer with extra long deep pink rosebuds opening to lovely pink blooms.

President Herbert Hoover. Multi-colored. Buds open to dark pink and rose, orange streaked with red, shadings of salmon and apricot.

R. M. S. Queen Mary (Pat. 249). Long-pointed buds open up to well-formed flowers, blushing vivid shades of salmon-pink and orange. \$1.25 each.

Radiance. Large flowers of sparkling pink with salmon-pink and yellow shadings at base of the petals.

Texas Centennial. Bright vermillion red with light tone of gold at base. Petals lighter red at center gradually toning to rich deep pink.

HYBRID PERPETUAL ROSES

\$1.00 each, \$9.00 for 10

Frau Karl Druschki. Largest white Rose of any class; beautifully shaped. Flowers freely throughout the season.

FLORIBUNDA AND POLYANTHA ROSES

\$1.00 each, \$9.00 for 10

Floribunda Roses are ideal for borders and hedges for abundant color all Summer. Their height averages two feet.

Donald Prior (Pat. 377). Semi-double, cup-shaped flowers of bright scarlet, flushed crimson.

Else Poulsen. Large semi-double flowers of bright rose-pink, on erect growing thrifty plants.

Gruss an Aachen. A dwarf grower suitable for bedding and low hedges. Orange-red and yellow buds open to large, delicate yellow and pink flowers.

Ideal. Rich blossoms of dark velvety red.

CLIMBING ROSES

\$1.00 each, \$9.00 for 10

Except as otherwise noted

Climbing American Beauty. Handsome buds and flowers of American Beauty red, good form and early flowering.

Dr. W. Van Fleet. Beautiful Roses of the Hybrid Tea type suitable for cutting. Flowers are of pale flesh-pink with a slightly darker center.

Golden Glow (Pat. 263). Very large, fragrant pure yellow, double flowers of extreme beauty, freely produced on plants with rich dark green foliage. \$1.50 each.

Mary Wallace. Another climber on type of Dr. W. Van Fleet, but blooms are brilliant pink with a yellow undertone. Very rich.

Paul's Scarlet Climber. This is the most popular and satisfactory scarlet-Climbing Rose. It has clusters of medium-sized semi-double brilliant scarlet flowers.

Silver Moon. A very strong climber with beautiful waxy green foliage and very large, pure white, semi-double flowers with golden stamens.

SHRUB ROSES

90c each, \$8.00 for 10

Except as otherwise noted

F. J. Grootendorst. A perfectly hardy everblooming shrub Rose suitable for hedges, specimens or border planting. The plant is similar to the vigorous Rugosa Rose in growth, with large, glossy foliage which is seldom attacked by insects or disease. The flowers are small, fringed bright scarlet flowers like little Carnations, and are borne unceasingly from early Summer until late Autumn.

Pink Grootendorst. A charming, bright shell-pink variation of the scarlet F. J. Gootendorst, like it in all other respects and equally valuable.

Rosa Hugonis. "*Father Hugo Rose*." This handsome, arching shrub with spiny stems and delicate foliage, blooms very early in May in long garlands of bright yellow, single flowers which are followed by red, translucent fruits. Give it a warm, sunny exposure to induce it to flower early. The plant is perfectly hardy. 2 to 3 ft. \$1.00 each, \$9.00 for 10.

Rosa Rugosa. (Rugosa Rose.) A stout right shrub, densely covered with prickles having bold, wrinkled foliage, immune to insects and disease. The flowers are very large, single, rose-red, and very fragrant, followed by crimson-scarlet fruit. Excellent near the seashore. 18 to 24 in. 75c each, \$6.50 for 10.
